

Aprendemos las tablas de multiplicar utilizando la tabla de Pitágoras plastificada y adaptada con colores:

Tabla del
1

$1 \times 1 = \underline{\quad}$

$1 \times 2 = \underline{\quad}$

$1 \times 3 = \underline{\quad}$

$1 \times 4 = \underline{\quad}$

$1 \times 5 = \underline{\quad}$

$1 \times 6 = \underline{\quad}$

$1 \times 7 = \underline{\quad}$

$1 \times 8 = \underline{\quad}$

$1 \times 9 = \underline{\quad}$

$1 \times 10 = \underline{\quad}$

Tabla del
2

$2 \times 1 = \underline{\quad}$

$2 \times 2 = \underline{\quad}$

$2 \times 3 = \underline{\quad}$

$2 \times 4 = \underline{\quad}$

$2 \times 5 = \underline{\quad}$

$2 \times 6 = \underline{\quad}$

$2 \times 7 = \underline{\quad}$

$2 \times 8 = \underline{\quad}$

$2 \times 9 = \underline{\quad}$

$2 \times 10 = \underline{\quad}$

Tabla del
3

$3 \times 1 = \underline{\quad}$

$3 \times 2 = \underline{\quad}$

$3 \times 3 = \underline{\quad}$

$3 \times 4 = \underline{\quad}$

$3 \times 5 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$3 \times 7 = \underline{\quad}$

$3 \times 8 = \underline{\quad}$

$3 \times 9 = \underline{\quad}$

$3 \times 10 = \underline{\quad}$

Tabla del
4

$4 \times 1 = \underline{\quad}$

$4 \times 2 = \underline{\quad}$

$4 \times 3 = \underline{\quad}$

$4 \times 4 = \underline{\quad}$

$4 \times 5 = \underline{\quad}$

$4 \times 6 = \underline{\quad}$

$4 \times 7 = \underline{\quad}$

$4 \times 8 = \underline{\quad}$

$4 \times 9 = \underline{\quad}$

$4 \times 10 = \underline{\quad}$

Tabla del
5

$5 \times 1 = \underline{\quad}$

$5 \times 2 = \underline{\quad}$

$5 \times 3 = \underline{\quad}$

$5 \times 4 = \underline{\quad}$

$5 \times 5 = \underline{\quad}$

$5 \times 6 = \underline{\quad}$

$5 \times 7 = \underline{\quad}$

$5 \times 8 = \underline{\quad}$

$5 \times 9 = \underline{\quad}$

$5 \times 10 = \underline{\quad}$

Tabla del
6

$6 \times 1 = \underline{\quad}$

$6 \times 2 = \underline{\quad}$

$6 \times 3 = \underline{\quad}$

$6 \times 4 = \underline{\quad}$

$6 \times 5 = \underline{\quad}$

$6 \times 6 = \underline{\quad}$

$6 \times 7 = \underline{\quad}$

$6 \times 8 = \underline{\quad}$

$6 \times 9 = \underline{\quad}$

$6 \times 10 = \underline{\quad}$

Tabla del
7

$7 \times 1 = \underline{\quad}$

$7 \times 2 = \underline{\quad}$

$7 \times 3 = \underline{\quad}$

$7 \times 4 = \underline{\quad}$

$7 \times 5 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$7 \times 7 = \underline{\quad}$

$7 \times 8 = \underline{\quad}$

$7 \times 9 = \underline{\quad}$

$7 \times 10 = \underline{\quad}$

Tabla del
8

$8 \times 1 = \underline{\quad}$

$8 \times 2 = \underline{\quad}$

$8 \times 3 = \underline{\quad}$

$8 \times 4 = \underline{\quad}$

$8 \times 5 = \underline{\quad}$

$8 \times 6 = \underline{\quad}$

$8 \times 7 = \underline{\quad}$

$8 \times 8 = \underline{\quad}$

$8 \times 9 = \underline{\quad}$

$8 \times 10 = \underline{\quad}$

Tabla del
9

$9 \times 1 = \underline{\quad}$

$9 \times 2 = \underline{\quad}$

$9 \times 3 = \underline{\quad}$

$9 \times 4 = \underline{\quad}$

$9 \times 5 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$9 \times 7 = \underline{\quad}$

$9 \times 8 = \underline{\quad}$

$9 \times 9 = \underline{\quad}$

$9 \times 10 = \underline{\quad}$

Tabla del
10

$10 \times 1 = \underline{\quad}$

$10 \times 2 = \underline{\quad}$

$10 \times 3 = \underline{\quad}$

$10 \times 4 = \underline{\quad}$

$10 \times 5 = \underline{\quad}$

$10 \times 6 = \underline{\quad}$

$10 \times 7 = \underline{\quad}$

$10 \times 8 = \underline{\quad}$

$10 \times 9 = \underline{\quad}$

$10 \times 10 = \underline{\quad}$
